14. Open Discussion Points

The following items require business confirmation before development:

Q1. Is GST mandatory for all buyer types?

Answer: GST is not mandatory for all buyer types.

Q2. Can one organization have multiple users?

Answer: Yes, one organization can have multiple users. However, the number of users can be limited to 2 or 3 based on the entity type.

Q3. Can one buyer maintain multiple delivery addresses?

Answer: Yes, buyers should be allowed to maintain multiple delivery addresses because billing will remain under the same organization name.

Q4. Should expired licenses automatically suspend purchases?

Answer: Yes, expired licenses should automatically suspend purchases. Alerts should be sent to users before expiry at 90, 60, and 30 days.

Q5. Is document renewal required before expiry?

Answer: Yes, renewal documents must be uploaded by the user or buyer before expiry. Reminder alerts should be sent at 90, 60, and 30 days before expiry.

Q6. Should admin approval support multiple review levels?

Answer: Yes, multiple review levels are required when the number of users increases.

Q7. Is bank information mandatory during registration or only during refunds?

Answer: Bank information is not required during registration. It is required only when a refund request is initiated.

Q8. Should buyers be allowed to edit organization details after approval?

Answer: Buyers should not be allowed to edit critical organization details such as organization name, GST number, primary address, license number, and buyer type without admin approval. Editable fields may include phone number, email address, and secondary address.

Q9. Is PAN required for verification?

Answer: Yes, PAN is required when the GST number is not available.

Q10. Should order limits vary based on buyer type?

Answer: No order limitations are required based on buyer type.
